

CONFLICT MINERALS STATEMENT

To Whom It May Concern,

ESA is not a manufacturer of electronic parts and PCB board assembly and thus is not in a position to provide accurate information relating to the use of conflict minerals in its products. ESA does not procure 3TG (Tin, Tantalum, Tungsten, and Gold) minerals directly from mines or smelters, in contrast with Dodd-Frank Financial Reform & Consumer Protection Act, section 1502(b).

ESA is committed to pursue responsible procurement practices.

ESA has started to embark in the process of working with its suppliers to ensure that no conflict minerals will be used in its products.
